

One Little River

CHORUS

One little river, goes into one bigger
Then into the sea it flows
Water, water, water, holds us all together
Bringing life wherever it goes

Where the water flows (sing & response)
Where the water flows (sing & response)
High up in the sky (sing & response)
Or in the ground way down below (sing & response)
From the mountains to the valleys (sing & response)
And into the sea (sing & response)
There's a watershed (sing & response)
Wherever you may be (sing & response)
There's a watershed (sing & response)
We should all get to know (sing & response)
There's a watershed (sing & response)
Where the water flows (sing & response)

CHORUS

**BANANA SLUG
STRING BAND**
