

# Miami County Park District Twin Arch Reserve

3147 N. Co. Rd. 25A, Troy

Located along the Great Miami River, this park is a great place for hiking, biking, fishing, kayaking, canoeing and viewing wildlife. A highlight of the park is the renovated, historic Miami-Erie Canal Twin Arches. The arches were originally built in 1837 and are one of only two structures of its type in Ohio.

If you prefer nature trails, there is nearly one mile that winds through the park and by the Natural Play Area where children can play in the woods, off the trail.
